

Food Chains

Gallery Explorer Kit

Activities for small groups

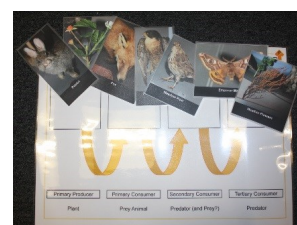

Eating Habits—Living Planet and Natural Northumbria Galleries

Roll the dice and find an animal in the gallery whose eating habits and environment match up. Two groups can use the dice simultaneously if needed, one in each gallery.

Food Chains—Natural Northumbria Gallery

Put together food chains for coastal and upland areas of Northumberland using the cases and these cards

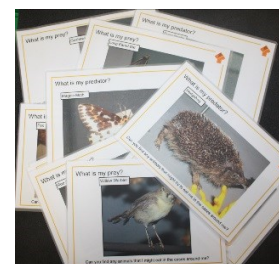

Teeth—Living Planet or Natural Northumbria Gallery

Can you work out which teeth in the box come from a carnivore and which from a herbivore? Why do different carnivores or herbivores not have the same shape teeth?

Predators and Prey—Natural Northumbria Gallery

Find predators and their prey from the woodlands of Northumberland

Activity for a full class

Food web—Natural Northumbria Gallery

Use the lowlands case in the Natural Northumbria gallery to investigate different animals—where do they live, how big are they, what do they eat....? Everyone gets an animal to research then the full class comes back together to construct a food web for this habitat.
