

KS2

Dippy downloadable resource pack

Circle the animals that you think are endangered.

Now find the animals in the 'Natural Northumbria' gallery to see if you were right.

Red Squirrel

Field Vole

Grey Squirrel

Goldcrest

Badger

Fox

Peregrine Falcon

Hedgehog

Adder

Can you match the animals to where in the world they come from?

Use the information in the galleries to help you.

Rabbit

Hippo

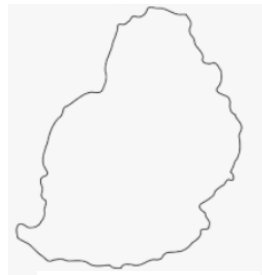

Bokikokiko

Kiribati

England

Mauritius

Rome

Egypt

Aurochs

Dodo

Otter

Megalichthys

Terrible Teeth and Claws - find all these Terrible Teeth and Claws in the 'Fossil Stories' gallery and match them to the correct Dinosaur.

Tyrannosaurus Rex

Hypsilophodon

Archaeopteryx

Cheirotherium

Dinosaur Facts: Match the correct numbers (each number can be used once)

head

Lived in the Cretaceous period
meaning: tyrant lizard king

Tyrannosaurus rex

20cm

1.5m

2.25m

12m

60

20mph

20-30yrs

68-66mya

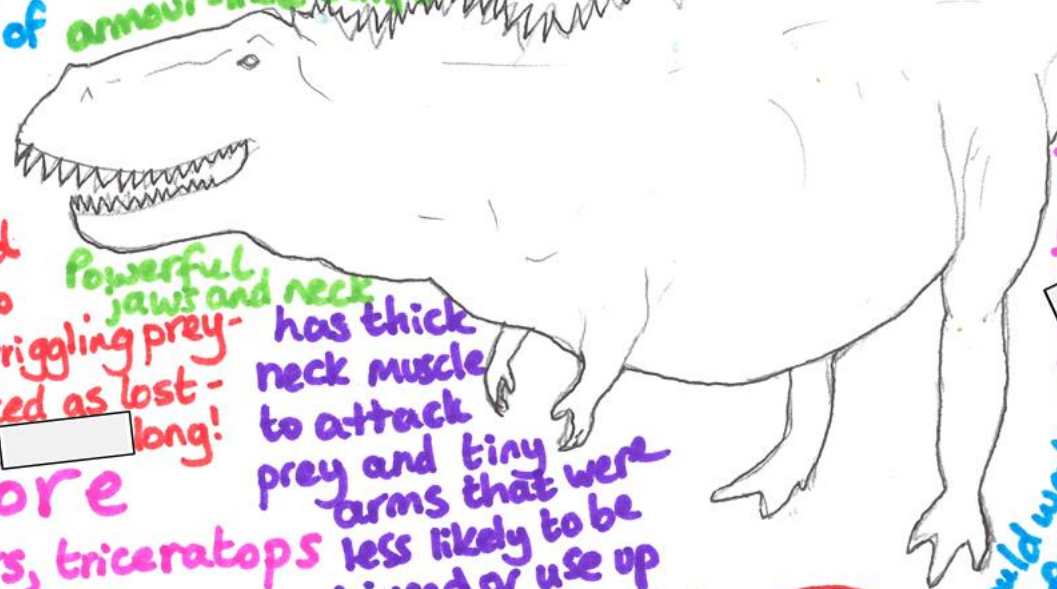

7000kg

57000N
(Newtons)

Large brains
in its large head
good sense of
smell and
telescopic
vision

armour-like bumps

ti-ran OH-sore us Likely had hair

Digests lumps of
flesh and bones -
of T.rex poo
was bone!

Could walk
very fast upto
but was unable to
knees due to its heavy body
Foot prints

wide and
dull teeth to
withstand wriggling prey -
teeth replaced as lost -
teeth upto long!

Powerful
jaws and neck

has thick
neck muscle
to attack
prey and tiny
arms that were
less likely to be
injured or use up
unnecessary energy

Carnivore
hadrosaurs, triceratops
Scavengers
of dead dinosaur carcasses
Fossils found in Canada

Length:
upto

weight:
upto

Dinosaur Facts:
Match the correct numbers (each number can be used once)

- 0.5m
- 1.5m
- 6m
- 26m
- 1800miles
- 9mph
- 80
- 35 days
- 70-80yrs
- 155-145mya
- 20000kg
- 50%

Diplodocus Longus

meaning: double beamed lizard

Lived in the Jurassic period [] lived []

head []

Very small brain in its []

Small head [] Couldn't lift its head high []

Delicate and slender []

peg-like teeth - replaced teeth at 1 every []

Herbivore []

Ferns, cycads, ginkgoes (leaves and plants)

Fossils found in USA []

long neck []

vertebrae []

has shorter front legs than back legs to browse on food close to the ground []

Ferments food in its guts (had no chewing teeth) []

Length: upto []

Whip-like tail could make a sonic boom - likely for defense []

Footprints: upto []

Award for Longest dinosaur []

Weight: upto []

Likely had spines along its back []

Whip-like tail could make a sonic boom - likely for defense []

Footprints: upto []

Award for Longest dinosaur []

Weight: upto []
