

Somebody's Swallowed Stanley!

The Somebody's Swallowed Stanley Contents:

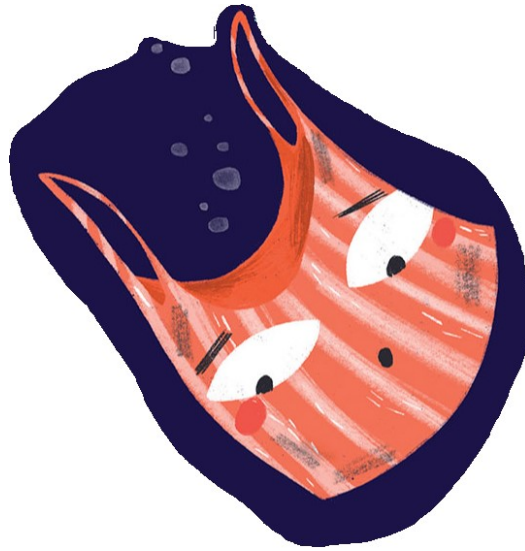

- Somebody's Swallowed Stanley story book
- A turtle story buddy
- Phonics wheels (Phase 3-5)
- Reading comprehension dice
- Plastic Detectives activity
- How can we help? Diamond 9 activity

Where can I use this story kit? We suggest using the Living Planet Gallery or Natural Northumbria Gallery.

Once you've finished, please ensure all items are placed back in the suitcase and is stored under the stairs in the butterfly corner or left with staff at the front desk.

Plastic Detectives!

Hello everyone,

As you may know, my name is Stanley. I've met so many sea creatures, can you tell me what they're all called?

Wow, you know lots about sea creatures! I'm worried that if I go back into the ocean that I'll hurt another animal again, just like I did when I met turtle! I really didn't mean to!

Please move round the gallery with your own Stanley so that you can introduce me to other creatures that may be affected by me. Please tell me why and how you think they'd be affected by plastic in the ocean.

From Stanley

What is the most effective way to reduce plastics?

There are 9 ways you can reduce plastic consumption or to increase recycling.

You can order these from most effective to least effective in a diamond 9.

If this is too many, you can pick 4 at random and complete a diamond 4.
